

## Why Vegetation Control Matters to Your Operation

- Uncontrolled growth impedes access & creates hazards.
- Constant mowing & trimming are labor intensive & costly.
- Noncompliance invites audits, regulatory burdens & liability.
- Hidden roots & vines damage pavement, equipment & fencing.

## Precision Vegetation Management Expertise

- Total Vegetation Control (TVC)
- Bare Ground, Gravel Spraying
- Selective Brush & Weed Control
- Fence Line, Perimeter Clearance

**VegClear is the Southeast's Herbicide Application Contractor for Industrial Facilities, Airports, Utilities, Municipalities, and Compliance Driven Sites.**

## Why VegClear

**Compliance Assured**  
*Individually Licensed Applicators, EPA and Label Adherence.*

**Durability That Pays Off**  
*Long-Lasting Control Protects Infrastructure and Cuts Repeat Work.*

**Safer Operations**  
*Clear Perimeters and Access Keep Your Site Inspection-Ready.*

**Proven Accountability**  
*Application Records, Logs, Photos, and Inspection Reports Verify Results.*

**Regional Expertise**  
*Responsive Local Spray Crews Across Georgia, South Carolina, and the Southeast.*

## Results You Can Rely On

**Before**

**After**

The spraying reduced growth along the fence lines and has kept the gravel clear, cutting our trimming cycles, I'd estimate by at least 75%.

O&M Manager, Middle Georgia Power Generation Plant

Kudzu overgrowth used to be a constant problem on our Atlanta tower compounds. Since working with VegClear for two years, service tickets and complaints from engineering are down.

Portfolio Asset Manager, Southeast Telecom Services

Our aging asphalt lots have stayed clear and weed-free, year after year across the portfolio, definitely a relief!

Region Facilities Director, Big Box Warehouse Operator

**Vegetation control that increases ROI while keeping your site accessible, compliant, and inspection-ready.**
